

SERIES II

FOCUS ON EXCELLENCE

Buckets, Thumbs, Quick Couplers

LEADING THE WAY IN EXCAVATOR ATTACHMENTS

Contact Your Heavy Equipment Distributor or **PSM** (425) 486-1232 for More Information

SERIES II **BUCKETS**

A new generation of excavator buckets engineered for strength, durability and capacity.

- Lower center frog section accommodates pin-grabber quick couplers while decreasing tip radius
- Deep heel profile
High capacity
- Wraparound leading edge for strength and durability
- Tooth and sidecutter options available

- Full T-1 double bottom wear plate for maximum wear

Series II buckets also available in road builder / rock models for severe and high abrasion applications.

SERIES II

BUCKET CLAMPS (THUMBS)

New Profile

- Aggressive design
- Stores compactly
- Grips effectively

Dual Progressive Links

- Greater range of travel
- Eliminates thumb body twist
- Even gripping power

100% T-1 Construction

- CNC machined
- Dual heat-treated pins
- Hardened bushings

Heavy-Duty Cylinder

- IHCP Rod
- Decelerating cushion (both ends)
- Dual bushings for more pin support

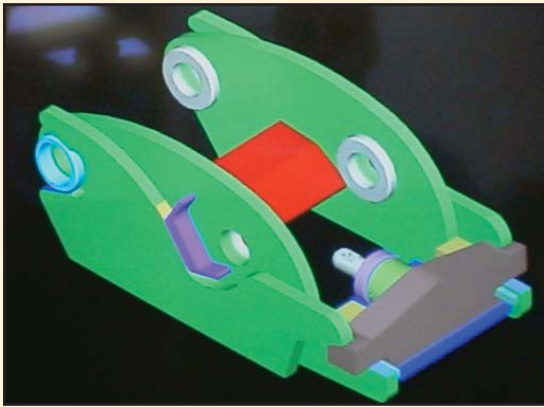

Series II thumbs are available in progressive link, no-link and pin-grabber models.

SERIES II **QUICK COUPLERS**

Patent Pending

A lightweight quick coupler, computer engineered and manufactured to exacting tolerances.

- Quick, easy interchange of attachments between excavators of similar weight
- Wear compensating design for longevity
- Maintains factory-specified breakout force
- Manual or hydraulic
- Available for all excavator attachments

***Series II* coupler systems simplify your excavator attachment inventory without the concern of changing models and manufacturers.**
