

No-Link Hydraulic Thumb

The PSM No-Link Hydraulic Thumb provides a less expensive alternative to the Progressive Link Thumb. Cylinder rod connects directly to the thumb body, reducing total thumb weight.

Ideal for applications where full range of motion is not needed. Allows the operator to effectively hold and move objects of many sizes and shapes.

Heavy Duty Cylinder
IHCP Rod
Deceleration cushion
(Both ends)
Dual bushings for more
pin support

100% T-1 Construction
CNC Machined
Dual heat treated pins
Hardened bushings

All PSM Thumbs can be custom engineered and manufactured to fit properly with your existing buckets and quick couplers, at no additional charge.
