

Solid Waste Compaction Grapples

PSM Corporation manufactures a complete line of compaction grapples designed for use in the solid waste and recycling industries.

The DMT series grapples feature 360degree continuous rotation, heavy duty compaction foot and high capacity grapple to efficiently load, unload, sort and consolidate solid waste or recyclable materials.

In addition to the grapples, PSM offers Pedestal Mounting Kits for conversion of hydraulic excavators to stationary transfer operations.

Also offered are a variety of jaw combinations for special needs.
