

Clamshells & Grapples

PSM LLC builds a complete line of Grapples and Clamshells for use in a variety of applications including Construction, Demolition, Rockeries, Scrap, Solid Waste, Pipelines, and many specialty applications such as logging.

Our basic Grapples and Clamshells are available in both articulating and free hanging designs.

Our articulating Grapples and Clamshells mount to the excavator stick with the bucket pins, the Free-Hanging models require a hanging block that mounts the stick. Custom engineering is available to build Attachments that fit your customers exact application.
